OVERVIEW

Charlotte assists clients and legal teams with complex mass tort and product liability litigation.

Charlotte aids senior paralegals and attorneys with data management for toxic tort matters across the United States in a variety of jurisdictions, specifically related to asbestos. She provides support to the Mass Tort & Product Liability teams through her effective data management, conducting legal research, maintaining case management databases, eDiscovery, and e-file case management. Charlotte's ability to meet critical deadlines and streamline matters means cost-effective solutions for clients.
