Construction Executive magazine has listed Husch Blackwell in its third annual Top 50 Construction Law Firms™ rankings. Overall, Husch Blackwell placed 10th in the rankings, which appear in the magazine's June 2022 issue.

“This recognition wouldn't be possible without our clients putting their trust in our construction team,” said Husch Blackwell partner Josh Levy. “We're delighted to be among the top-ranked construction firms in the country.”

Now in its 20th year of publication, *Construction Executive* is the leading trade magazine about the business of construction. In its June 2022 issue, CE published a comprehensive ranking of *The Top 50 Construction Law Firms*™ featuring breakouts and analysis accompanied by an article in which leading accounting experts discuss their construction clients' most pressing business concerns.

To determine the ranking, CE asked hundreds of U.S. law firms with construction practices to complete a survey. Data collected included: 1) 2021 revenues from the firm's construction practice; 2) number of attorneys in the firm's construction practice; 3) percentage of firm's total revenues derived from its construction practice; 4) number of states in which the firm is licensed to practice; 5) year in which the construction practice was established; and 6) the number of AEC clients served during fiscal year 2021. The ranking was determined by an algorithm that weighted these factors in descending order of importance.
