

EUROPE, THE MIDDLE EAST, & AFRICA

Clients enjoy exceptional value by working with Husch Blackwell on matters in Europe, the Middle East, and Africa. We deliver “one firm” service – the same that clients expect for U.S. projects. Working with our global partner Pinsent Masons, we build customized teams for each matter, ensuring that all team members understand the client’s business and operations. Husch Blackwell oversees the team’s progress and is the point of contact.

At the outset, clients receive one fee quote that includes the international elements. After work is performed, clients are billed through only one statement. Our integrated international service model ensures clear communication, greater accountability, consistent results, and superior outcomes for clients.

Our partner Pinsent Masons has offices worldwide:

United Kingdom: Birmingham, Leeds, London, and Manchester, England; Aberdeen, Edinburgh and Glasgow, Scotland; Belfast, Northern Ireland; Dublin, Ireland; and Stanley, Falkland Islands.

Australia: Melbourne, Perth, and Sydney.

Europe: Dusseldorf and Munich, Germany; Madrid, Spain; and Paris, France.

Middle East: Doha, Qatar, and Dubai, United Arab

The commercial viability of our biofuel refining technology is made possible through international collaboration among world-class organizations. Husch Blackwell helped facilitate these relationships and the financing necessary to move our projects forward.

— Robert Tripp,
CEO, Benefuel Inc.
