

TRUCK, TRANSIT, & GROUND

Husch Blackwell understands the regulatory, labor and employment, and safety compliance concerns inherent in the ground transportation industry. By resolving day-to-day legal matters and partnering on strategic objectives, we put these clients in the driver's seat.

Our attorneys advise truckload and less-than-truckload (LTL) carriers, third-party logistics providers, transportation brokers, and freight forwarders on over-the-road matters involving everything from cross-border operations and driver compliance to taxes, litigation, and dispute resolution.

Representative Experience

Advised one of North America's largest less-than-truckload shippers in sale of division.

Represented national transportation and product manufacturer in various high-stakes lawsuits involving catastrophic injuries and deaths throughout state of Texas resulting in defense verdicts or other favorable resolutions.

Counsel shippers in U.S. domestic trades to structure agreements with motor carriers to allow shippers to act as Property Brokers to secure cargo from other shippers, licensed by Federal Motor Carrier Safety Administration (FMCSA), in order to maximize use of container/trailer space on backhaul of motor carrier transport after delivery

“Thanks to the impressive industry and trial expertise of the Husch Blackwell team, we successfully obtained a motion to dismiss. The case represents the first time we have prevailed on either jurisdictional or venue grounds in a train-crossing accident.”

— CEO, Cross-Border Railway Service —
